ROUTE 40, GLACIERS & PAINE ADVENTURE

16 days – 15 nights
(Trek grade: moderate)

Departures: Every Wednesdays. Guaranteed.

Season: October thru April

Trip starts at: Comodoro Rivadavia Airport

Trip ends at: El Calafate Airport

The FMC – Route 40, Glaciers and Paine Adventure shares the same itinerary of our PAC but avoids the final section from Puerto Natales to Ushuaia. Starts as a road trip along the legendary route 40, which runs all from north to south of Argentina at the foot of the Andes, something like 5000 km of road. We'll travel the southernmost section of the route 40, gravel road across the Patagonian steppe, to continue visiting Fitz Roy and Cerro Torre, may be the two most emblematic mountains of Patagonia. We then move to the Perito Moreno Glacier (only one in the world that shows a closure and rupture process) and Torres del Paine National Park in Chile. Ends in El Calafate.

From here we turn west to leave the Atlantic behind and start our approach to the Andes. After 350 km (paved road) we reach Los Antiguos, on the shores of lake Buenos Aires, the second largest lake in America after Titicaca. We are 2 km away from the Chilean border.

Day 2 Los Antiguos – Lago Posadas

From Los Antiguos (famous for its cherry production) we travel south along route 40 to get to the Pinturas River Canyon and visit the “Cueva de las Manos” (Cave of the Hands, literally), ancient paintings 10,000 years old. We travel then west to Lago Posadas, small and picturesque town and gateway to lakes Posadas and

Pueyrredón on the argentinean side. We drive this day approximately 360 km, 60 of them paved.

Day 3 River Oro Canyon – Lake Pueyrredón

Lakes Posadas (blue) and Pueyrredón (green), separated by a narrow stripe of land, are probably two of the most beautiful lakes of southern Patagonia. They lay in a large glacier valley, separating the Highlands of Lake Buenos Aires from Cerro San Lorenzo massif. We use this day to visit this beautiful valley and the surroundings of both lakes. We'll see strange and colourful rock formations, wetlands and birds. We also visit the River Oro Canyon, which comes from Cerro San Lorenzo to Lake Pueyrredón.

Lodging at Hosteria or Inn, double room with private bathroom.

Alternative: Single room with private bathroom.

Meals we provide: Breakfast, box lunch, dinner.

Day 4 Lago Posadas – El Chalten

After breakfast we get on the bus for the final sprint to El Chalten, 550 km south. On our way, different birds and flowers will give life to the desert-type landscape. We have lunch in a Patagonian style stop-over place. The final 100 km westbound features lake and glacier Viedma and the spires of Fitz Roy massif and Cerro Torre group. Arrival to Chalten is scheduled around 7 pm.

Alternative: Hosteria or Inn, double or single room with private bathroom.

Day 5 Laguna Capri

We start our 4 days trek from El Chalten, by noon, in order to join our fellow travellers arriving from Calafate this morning. We carry in our packs only the necessary items for this 3 nights and 4 days in which we'll overnight in our Full Camps inside the National Park.

We hike up a gentle slope on Fitz Roy trail to gain height over the River de las Vueltas valley up to the first viewpoints over Fitz Roy massif. Our hike to Laguna Capri will take us no more than 2 hours and a half, in a clear and easy trail. Once on our Laguna Capri Full Camp, we leave our stuff in our tent and we enjoy an afternoon walk to the sightseeing points around the lagoon.

Full Camps are pitched up early in the season, so we find the camp ready upon arrival. It offers comfortable 3 people igloo type tents for each 2 passengers, with mattresses and sleeping bags. An inside cotton sheet is

provided as inner clothing for the sleeping bag. The camp also features a spacious dining tent, a kitchen tent, tables, benches or chairs and a full set of table service and kitchenware. The sanitary services are latrine-type.

Meals we provide: Breakfast, box lunch, dinner.

Day 6 Cerro Fitz Roy, Laguna de los Tres

Early in the morning, before the first coffee, we can try to match up the morning Light getting pink in Fitz Roy granite walls. You only need this to feel the trip is worthwhile. But of course the day offers much more.

After breakfast, carrying only day personal items such as our parka, gloves, our camera, water bottle and box lunch, we hike along Fitz Roy trail up to Rio Blanco, climbers basecamp to the east side of the mountain. From here a steep 1 h trail leads us to one of the most spectacular viewpoints of the National Park: Laguna de los Tres, with its zephyr blue colour, lays at the foot of the massif, offering full close up views of Fitz Roy massif spires and glaciers. Each wall rises something from 600 to 1500 mts above the surrounding glaciers. Fitz Roy, with its 3405 mts above sea level, is considered the "King of Patagonia" and also considered one of the three most beautiful mountains on Earth (together with Alpamayo in Perú and K2 in the Karakoram). We hike back to Laguna Capri in the late afternoon. Walking time is 5 to 6 hs.

Day 7 Cerro Torre

Today we make it around Laguna Capri to get to the Lagoons Madre and Hija Valley and down to Fitz Roy river valley, where we meet Cerro Torre trail and we get to Cerro Torre Full Camp. The trail runs along beech forest, bogs and shrubland. From the camp, a short hike takes us to Laguna Torre, enclosed by moraines and with the Glacier Grande calving in its west side. It is usual to see icebergs pushed by the wind in the coast of the lagoon. The thin and elegant 3128 mts of Cerro Torre group and the Adela range in the background complete this spectacular view. Walking time 3 to 4 hs.

For keen hikers, we offer an optional excursion, the so called "Holiday on Ice": early start, crampons and harnesses, a tyrolean (horizontal fixed rope attached to both sides of a river) to cross Fitz Roy river, and we visit Glacier Grande, where we will visit crevices, ice caves and we'll practice ice climbing with the proper advice of experienced mountain guides.

Late in the afternoon we walk back to Chaltén along Fitz Roy river valley. Total estimated time of the standard day: 4 to 5 hs. If you go on the "Holiday on Ice", it is 7 hs plus the trail back to Chalten which is 2 and a half hours more.

By 5 pm we take our bus to our next destination, El Calafate, gateway for the glaciers area of the Park. Arrival time is scheduled for 9 pm. Driving distance: 220 km

Day 10 El Calafate –Perito Moreno Glacier

We dedicate this day to one of the World's Natural Wonder: the Moreno glacier. This ice field- type glacier flows down from the Patagonian Icefield, a big sheet of ice that with its 22.000 square kilometres is the third largest glacier area in the world, after Antarctica (14 M sq km) and Greenland (1 M sq km). Because unusual favourable local conditions, this glacier is the only one in the world that shows a closure and rupture process. The road leads to the very front of the glacier, which will be only meters away from your eyes. A beautiful, short trail, will lead us

from the shores of the lake to the upper viewpoints. The roar of the chunks of ice falling inside the glacier or from the glacier into the lake, the frequent collapse of the front seracs into the turquoise water, makes out of this day a very special and unique experience. We will drive 80 km (1 and a half hour) to get and come back from the glacier across the steppe, watching a wide variety of birds.

Lodging in a Hostel room with shared bathroom.

Alternative: Hosteria or Inn, double or single room with private bathroom.

Meals we provide: Breakfast.

Day 11 El Calafate – Torres del Paine National Park

Early start for a 6 hs drive to our camp in Paine. We drive across the steppe, still following by parts the legendary route 40, to get around Sierra de los Baguales, an impressive range in between Calafate and Paine. We cross the Argentinean Chilean border at Cancha Carrera/ Cerro Castillo. After the border crossing, we start our final sprint to Paine National Park, World Heritage by the UNESCO (United Nations Education, Science and Culture Organization). Approaching the Park, we start to see the different mountains that feature the area: Paine Grande, the Horns, Admiral Nieto and the Towers. We enter the Park by Porteria Sarmiento. A rich wildlife: guanacos, lesser rheas, condors and all types of wetland and buzzard birds, will be available for our eyes and cameras. We'll stop in the Lake Nordenskjöld and in Salto Grande viewpoints for short walks. In the afternoon we continue to visit the westernmost side of the National Park, lake Grey area, where a short and easy hike along the south shore of the lake allow us to enjoy the blue icebergs that calving from the glacier in the northern side of the lake are pushed by the wind to this side.

Lake Pehoe Full Camp keeps the style of Laguna Capri and Cerro Torre Full Camps, but combined with the first class facilities provided by the campsite: good and clean bathrooms and hot water showers, water and electricity in each camping site.

Day 12 Paine Towers – Ascencio River Valley

We drive an tour to get to Estancia Cerro Paine, head trail for the world famous Paine towers. We “warm up” hiking a steep one hour slope, to get inside the Ascencio river valley, a narrow “V” shape alpine valley coming from inside the Paine massif. A gentle downhill leads us to Refugio Chileno, a cozy and comfortable mountain lodge, which can be a good turnaround point for those not willing to make a full day hike. We then walk in a gentle slope along the river side and inside beech forest. A final climb on moraine take us to the Towers viewpoint: a glacier origin lagoon and the three towers rising vertically 1000 mts from the glacier. The lack of breath will be either because the climb and the sight!!!! We go back to our camp on the same way we came. Walking time: 7 to 8 hs.

Day 13 Lake Pehoe crossing – French Valley

Early in the morning a short drive takes us to Port Pudeto to board the catamarán that cross lake Pehoe twice a day. We carry only the necessary stuff to be 2 days and 1 night away from our Camping Pehoe Full Camp, where the rest of our luggage will stay. One in the far side of the lake, we leave unnecessary items in our tents and we set out to the French Valley trail. The trail skirts Paine Grande south slopes and lake Skottberg, to take us after 2 hs and a half of continuous ups and downs, to the hanging bridge upon the French River. This breathtaking location is at the foot of both the 2700 mts south east face of Paine Grande (to the west) and the Horns, with its characteristic black sedimentary topping, to the east. Keen hikers can go on and reach the upper viewpoints of the valley, from where you see the whole group of spires that feature the high valley: Hoja (Blade), Máscara (Mask), Espada (Sword), Catedral (Cathedral), Aleta de Tiburón (Shark Fin) and the magnificent Fortaleza (The Fortress).

Walking time for those who reach the upper viewpoints: 8 to 9 hs. For those reaching the lower viewpoints: 5 to 6.

Day 14 Lake & Glaciar Grey viewpoints

Lake Grey trail leads from Pehoe Valley across ridges to reach Grey valley. This magnificent valley flows down somewhat of 60 km from the Patagonian Icefield, featuring the huge glacier calving down in the grey colour lake. Our trail skirts the lake, going up and down the westerns slopes of Paine Grande, offering some of the most impressive sights of the Park. From the high sections of the trail, many different viewpoints allow us to see the south end of the lake where the blue icebergs gather, the mountains rising far in the distance above glaciers Grey

and Tyndall, and of course lake and glacier Grey. The trail reaches a close up point to the front of the glacier. We come back along the same trail, crossing bogs, shrublands and forest. In the evening we take the boat to cross lake Pehoe back to Pudeto and get back to our Camping Pehoe Full Camp.

Time to walk 8 hs. To the half way viewpoints, round way from our camp, 4 to 5 hs.
